MINI BLOCK SUBWOOFERS

In a complete surround system a powerful deep bass is always ideal, the MiniBlock Subwoofer amplifier was created to further explore these beats. The MiniBlock is a class D (Mono) amplifier in which it aims to add the best frequencies according to the needs of the environment.

SPECIFICATIONS

Enclosure

Aluminum

Class

D

Potência Nominal

200W

Rated power

188W THD+N1%

Standard power Magna 4Ohms

THD+N<0,1%

140W @120Hz

Standard power Magna 8Ohms

THD+N<0,1%

112W

Protections

Frequency (subsonic and RF)

Short Circuit

Impedance Protection

Impedance

4 ohms | 16 ohms

Dimensions (WxHxD)

4.9 - 2 - 8.1

Spent

250W

Channels

1 (Mono)

Dissipation

Passive

Working Voltage

AC 90 ~ 240V

Working Frequency

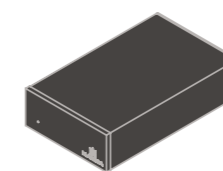

47 ~63hz

Maximum consumption current

3,5A MAX
