MAGNA

Designed by Magna takes your home cinema room to a completely new level.

Since most homes do not have a dedicated movie theater room, it's the ideal solution for living rooms that are used as a home theater as its design and finish blend in with the environment and appeal to everyone from the hobbyist to the designer of interiors.

Performance, which is always the first thought of our technical staff, has not been set aside even in the subwoofer that was projected in the smallest possible size as it is always a non grateful piece for decorators and wives.

Be amazed by the performance of the best 8" subwoofer available on the market.
