

P O L L Y

MAGNA

POLLY

The Polly is an all-weather outdoor speaker, capable of sound distribution up to 360 degrees, featuring a 10" subwoofer that sits deep under the ground, and features led lighting.

Constructed 100% in aluminum, with stainless steel screws, its inner body is protected with electrostatic paint and external cabinet with matte automotive paint.

With a wide coverage reaching up to 3.000sqft, it uses ADA, Array Driver Alignment for wider dispersion.
